DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/19/2005 has been entered.

Allowable Subject Matter

Claims 1-4,6-13 and 16-19 are allowed.

The following is an examiner's statement of reasons for allowance: claims 1-4,6-13 and 16-19 are allowed because the references cited fail to teach, as applicant has, a at least one pair of balanced modulators identically configured with respect to control of device and component matching and circuit symmetry on a monolithic microwave integrated circuit (MMIC) each modulator including a symmetrical pair of notch filters, each centered at the frequency of the RF carrier, where a first of the symmetrical pair of notch filters feeds the data bit information exclusive of the RF carrier to the data port; and a second of the symmetrical pair of notch filters feeds a complement of the data bit information exclusive of the RF carrier to the data port, as the applicant has claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2631

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
